

NUTRITIONAL SCIENCES MINOR-7089

College of Natural Science

Department of Food Science and Human Nutrition

Undergraduate Programs

Minor in Nutritional Sciences

The Minor in Nutritional Sciences, which is administered by the Department of Food Science and Human Nutrition, will broaden students' understanding of the science of nutrition and the relationships between food and health.

The minor is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University other than the Bachelor of Sciences Degree in Nutritional Sciences or the Bachelor of Science Degree in Dietetics. With the approval of the department and college that administers the student's degree program, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult a Nutritional Sciences undergraduate adviser in Department of Food Science and Human Nutrition.

Requirements for the Minor in Nutritional Sciences

Complete 15 credits from the following:

1. One of the following courses (3 credits):

HNF	150	Introduction to Human Nutrition	3
HNF	260	Principles of Human Nutrition	3
2. All of the following courses (12 credits):
